

## The Standard in Enterprise Solid State Storage

InfiniBox SSA II sets the industry standard for all-flash arrays with its critical combination of price, performance, capacity, and features. Infinidat Federal's software-defined operating system, InfuzeOS™, drives the platform's powerful 3-way active controller architecture and delivers outstanding performance for both block and file services, availability, resilience, and usability. InfiniBox SSA II is a powerful, green platform that enables greater workload consolidation in the same floor space resulting in significant reductions in OpEx. It is available in a flexible scale-up architecture with 60%, 80%, and 100% populated models.

### The Best Performance at Scale

Neural Cache, InfiniBox's patented, machine learning algorithms provide unrivaled performance at scale. InfiniBox SSA II delivers latency performance as low as 35 microseconds. Performance is even guaranteed!<sup>1</sup>

### Significant Economic Benefits

According to commissioned IDC research, InfiniBox customers saw overall OpEx expenses cut by 48% with payback in 11 months.<sup>2</sup>

### InfiniSafe: Comprehensive Cyber Resilience

Powerful, zero-impact, immutable snapshots are the foundation for InfiniSafe®, InfiniBox's cyber storage stack, which is included.

InfiniSafe cyber storage guarantees provide added assurance.<sup>3</sup> Add on InfiniSafe Cyber Detection to enhance creation of cyber storage resilient environments with deep content level analysis of data sets to identify cyber threats via machine learning.

### World-class Data Services

Patented InfiniRAID® technology ensures data integrity and availability. Data-at-rest encryption ensures your data is safe, down to the individual device level. Best-in-class replication provides multi-site asynchronous replication with an RPO as little as 4 seconds and synchronous capabilities.

### 100% Availability Guaranteed

Infinidat Federal's SLA-based guarantees provide for 100% availability<sup>4</sup> which means zero downtime.

### Simplified User Experience

InfiniOps™ makes InfiniBox SSA II easy to use. Machine learning and cloud-based AI enable autonomous and automated capabilities that take the guesswork and cost out of many complicated storage functions. This reduces management costs and can save up to 51%<sup>5</sup> in management time.

## Platform Highlights

InfiniBox SSA II brings together all the capabilities you expect in an enterprise-ready, all-flash platform:

### Unified Storage Platform

InfiniBox SSA II is a unified platform providing block connectivity over numerous protocols, as well as tightly integrated file protocols such as NFS and SMB.

### Unmatched Performance at Scale

InfiniBox SSA II provides effective capacities up to 6.6357PB, enabling you to consolidate more workloads and support applications that require ultra-high performance and extremely low latency. Neural Cache ensures that performance is never sacrificed just because more capacity is needed. In fact, we guarantee performance!<sup>5</sup>

### Tremendous Cost Savings with Rapid ROI

An IDC business value study<sup>2</sup> of InfiniBox customers shows an ROI in 11 months, with significant cost and time savings across many critical operational areas. The newest model of the InfiniBox SSA II doubles usable capacity and gives enterprises the ability to advance a greener data center with reduced enterprise power and cooling needs, and even lower total cost of ownership (TCO).

### White-glove Service and Support

Outstanding “white-glove” service and support are included with our platforms in your environment. Infinidat Federal customers get a dedicated Technical Advisor who stays in touch every step of the way, providing proactive tips, support, and best practices.

### Industry-recognized Customer Experience

InfiniBox is a four-time Gartner Peer Insights Customer’s Choice with a 4.9 stars out of 5 rating for primary storage. 98% of customers indicate their willingness to recommend our products to their peers.<sup>6</sup>

## About InfuzeOS

InfuzeOS is the only single, software-defined storage architecture that spans all platforms. InfuzeOS drives the most powerful capabilities, performance, availability, cyber storage resilience, and economics of our industry-acclaimed storage platforms.

## From Our Customers

“...with their new InfiniBox SSA II offering, we’re able to bring 35 microsecond latency and 100% availability to help our customers meet the most demanding workloads. And with the InfiniSafe Cyber Resiliency Technology extending into the InfiniBox portfolio, we’re able to provide our customers the peace of mind they need in a time filled with cyber attacks and data breaches.”

## Flexible Consumption Models

Infinidat Federal makes the procurement process easy with options that include traditional CapEx purchases and consumption-based models to suit a variety of business needs. Elastic Pricing gives full ownership where you only pay as you license additional storage. The FLX model provides a full, cloud-like, pay-as-you-go experience. Regardless of which procurement method, customers get the full performance capabilities of the entire platform, even if using only part of the overall capacity. All enterprise features and reliability are included along with white-glove service and support.

## Guarantees

Infinidat Federal stands behind its primary storage platforms with SLA-based guarantees:

### 100% Availability Guarantee

Infinidat Federal's long-time 100% data availability guarantee<sup>4</sup> goes beyond the traditional 9's to meet the always-on business expectations of today.

### Performance Guarantee

Infinidat Federal will tailor a set of performance service level guarantees<sup>5</sup> based on an understanding of a customer's workloads and performance requirements.

### InfiniSafe Cyber Storage Guarantees

InfiniSafe Cyber Storage Guarantees<sup>3</sup> build on our core InfiniSafe technology and guarantee both recoverability of immutable snapshots and recovery in less than a minute.

## From Our Customers

“With the InfiniBox SSA we found the answer to the performance needs of our customers and have enjoyed excellent customer experience and uncompromising reliability. Our InfiniBox SSA met the very high-performance expectations for the most demanding customer workloads!”

### Chief Technology Officer

<sup>1</sup> Internal Latency as low as 35 microseconds based on customer production telemetry data, read I/O hits (DRAM cache) actual results may vary. March 2022.

<sup>2</sup> IDC White Paper, Sponsored by Infinidat, The Business Value of Infinidat Storage, Doc. #US49976922, February 2023

<sup>3</sup> We guarantee the recoverability of an immutable snapshot and complete the snapshot recovery within 1 minute - Terms and conditions apply

<sup>4</sup> 100% Availability is based on our 100% data availability guarantee - Terms and Conditions apply

<sup>5</sup> Performance guarantees required a detailed performance analysis of workloads for a guaranteed SLA - Terms and conditions apply
